

Trailblazer
Recycling &
Clean Energy

De-risking R&D

» Are you working on a solution for a complex recycling or clean energy challenge?

»»»»» Do you need help to find the right expertise, facilities or equipment?

»»»»»»»»»»»»»»» Are you looking for funding and support?

The Trailblazer for Recycling and Clean Energy (TRaCE) program is here to help you get your solution to market.

With TRaCE's tailored support, you can:

- » access world-class researchers, facilities and specialist equipment,
- » test and validate your solution,
- » tap into an ecosystem of knowledge and networks,
- » upskill your team with education pathways and training,
- » explore tailored IP solutions, and
- » receive funding and comprehensive support.
